OFFICIAL OWNER'S GUIDE

ADHD Budget Planner

Calm Money & Payoff Planner • 100% Offline • Zero Bank Connections • Total Privacy

🚀 Open Web App

https://rehanlabs.github.io/ADHD-Budget-Planner/

📱 Step 1 & 2 — Add to Your Home Screen

Adding ADHD Budget Planner to your phone's home screen does three essential things:

- **Opens full-screen** without browser URL bars, just like a native app store app.
- **Prevents Safari's 7-day auto-clear**: Apple Safari auto-clears website data after 7 days of inactivity, but home-screen web apps are granted protected permanent storage!
- **Enables 100% offline mode**: Launches and saves your data with zero cellular or Wi-Fi signal.

📱 iPhone / iPad (Safari)

1. Open the link above in **Safari**.
2. Tap the **Share button** (box with upward arrow).
3. Scroll down and tap **"Add to Home Screen"**.
4. Name it **ADHD Budget** and tap **Add**.

🤖 Android (Google Chrome)

1. Open the link above in **Chrome**.
2. Tap the **three-dot menu (⋮)** top-right.
3. Tap **"Add to Home Screen"** or **"Install App"**.
4. Tap **Install** to add it to your apps list.

> 💻 **Mac & Windows Users:** Open in Chrome or Edge and click the install icon (computer with downward arrow) in the address bar. You can also run 100% offline directly from the `offline-backup` folder in this download!

🧠 Your 4 Neurodivergent Superpowers

Engineered from the ground up for dopamine-seeking, easily overwhelmed brains:

1. 🎛️ Safe to Spend Today

No complex spreadsheets or 50 budget buckets. You get **one simple number**: what you can safely spend today without risking rent, bills, or debt payments. Before any purchase, ask: *"Is this within today's safe number?"*

2. ⏳ 48-Hour Impulse Vault

Suddenly want to buy something online? Don't fight the urge — **park it in the Vault**. A 48-hour calm countdown begins. Studies show over 80% of impulsive dopamine urges fade after 48 hours. If you still genuinely need it after the timer, buy it guilt-free!

3. 🧟 Zombie Mode

Experiencing ADHD burnout, executive dysfunction, or money anxiety? Tap **Zombie Mode** in the top navigation bar. Every chart, tab, and complex stat instantly disappears, leaving only your daily allowance and 1-tap quick spend buttons.

4. 📝 Brain Dump Scratchpad

Money anxiety often comes from fragmented thoughts ("need to cancel gym", "buy dog food Tuesday"). Use the **Notes** tab as a frictionless thought-dumping pad so nothing gets lost.

✨ Getting Started: Meet Maya

When you first launch the app, Maya greets you with a friendly welcome:

- **Option A (Recommended) — "Start with Maya"**: Maya takes you on a fast, 5-step guided tour showing how your paycheck cycle, bills, and checking balance compute your daily Safe to Spend number.
- **Option B — "I've Got This"**: Jumps straight into your clean dashboard. Tap **Settings (gear icon)** anytime to configure your currency, paycheck frequency, and bank balance.
- You can replay Maya's walkthrough anytime by tapping the **[🧑‍💼 Maya's Guided Tour]** button at the top of the screen.

🔒 Protecting Your Privacy & Data

Your financial data is 100% private. It never touches a cloud server or third-party database. Because data lives on your device, we recommend:

1. Go to **Settings → Download Backup (.json)** once a month and save it to your iCloud, Google Drive, or Downloads.
2. If you ever get a new device, click **Restore Backup** to reload your entire planner in 2 seconds.
3. Use **QR Device Sync** in Settings to transfer your budget between your computer and phone with zero internet!

❓ Frequently Asked Questions

Q: Does this link to my bank account?

No. ADHD Budget Planner is 100% manual by design. Automatic bank syncs often break, disconnect, and trigger anxiety. Entering your balance takes 5 seconds and builds genuine financial mindfulness.

Q: Can I use different currencies?

Yes! Go to Settings to toggle between USD ($), CAD (CA$), GBP (£), EUR (€), AUD (AU$), and JPY (¥).

Q: Can I use this on both my phone and laptop?

Yes. You can use Settings → Download Backup on Device 1 and Restore on Device 2, or use the built-in QR Sync feature in Settings.

Q: Need help or have feedback?

Message us directly through your Etsy purchase page. We read every message and respond within 24 hours!

Thank you for supporting an independent neurodivergent creator! 💚
